JINGO'S JAG WAS FATAL

Big Elephant Could Not Stand Trip Across the Ocean.

PANDEMONIUM ON SHIP

For Sixty Hours Preceding His Death the Animal Trumpeted Continuously and the Other Beasts Joined In. Whiskey Was of No Avail.

(By Associated Press.)
NEW YORK, March 18.—The elephant
Jingo, said to have been larger than Jumbo, died at sea on the steamer Georgic, which arrived to-day from Liverpool. The animal's death occurred March 12th, and the huge body was buried at sea.

The animal show bought Jingo in Lonsince infancy, and from the time of sailing from Liverpool it frettel and pined away. Jingo was twenty-two years old, twelve feet high, weighed six tons, and was valued at \$50,000.

For sixty hours preceding its death, the mammoth beast trumpeted without ces-

mammoth beast trumpeted without cessation and twice knocked down its keeper. Thomas Lawrence, who attempted to pacify it. The cries of the elephant aroused the leopards and tigers, which were on the ship, and they, too, joined in the cry, which for three days kept the crew of the Georgic on its guard.

As each day passed Jingo seemed to grow weaker, and he squirmed in his narrow cago in an effot to get out. He was securely chained to the cage in such a position in the aft hatchway that escape was impossible. On the afth day out the animal's condition became such that Lawrence gave him whiskey and kept him under the influence of liquor, for almost three days. It was then that Jingo became even more savage than ever, and began the trumpeting. The entire crew went to Lawrence's assistance on the cleventh day and joined him in an effort to nucley three days. went to Lawrence's assistance on the cleventh day and joined him in an effort to pacify Jingo. They all failed, however, and twice the beast got its trunk through the bars of the cage and struck the keeper with such force that he was thrown to the deck. The other animals joined in the great noise until about 9 o'clock on the morning of the twelfth, when suddenly Jingo's cries ceased. Lawrence ran to the cage to find the animal dead.

His carcass was examined, and after it was decided it could not be stuffed it was ordered thrown overboard.

GRAND SECRETARY COMING

Mr. James B. Blanks, of Petersburg, to

Address McCarthy Council.

There will be an interesting meeting f McCarthy Council, No. 463, Royal of McCarthy Council, No. 463, Royal Arcanum, at Lee Camp Hall to-night at 3 o'clock. The Committee on Entertainment will have several attractive features to offer for the night's pleasure. On this occasion the council will have the good fortune of hearing a talk from the grand secretary, James B. Blaks, of Petersburg. This is always a drawing card with McCarthyltes, for the cloquence of the grand secretary always receives the warmest reception, and his enthusiasm for the order awakens the greatest zeal among his hearers.

After the exercises of the council are over the Entertainment Committee will look after the wants of the mobers. McCarthy Council is forging ahead with most noticeable and striking increase. Doubtless this meeting will be largely attended.

Five Richmond Tobacco Factories at Odds with Workers

A TALK WITH BOTH SIDES

The Outcome of the Matter Likely to Be the Appointment of an Arbitration Commission-An Agreement Likely.

Five of the largest independent tobacco factories of Richmond are at odds with the International Tobacco Workers' Union to the extent that the union labe has been withdrawn from them, and a communication has been sent to the president of the labor organization in Louis-ville asking his advice in the matter.

There appears to be no danger of strike or anything of the sort, and the matter, it is hoped and believed, will eventually be settled amicably, still there eventually be settled amicably, still there is somewhat of a stir-up. The union, or its Advisory Board, met last night and the night before for a discussion of the situation and several other such meetings are in prospect. The manufacturers are also getting together on the question

NEW WAGE SCALE. NEW WAGE SCALE.

The trouble arises over a new wage scale, which has recently been promulgated by the local union. On the ground of increased cost of living an advance was made in the cut-plug department, in the stemming department, and in the lump department.

The independent factories clubs of

was made in the cut-plug department, in the stemming department. And in the imp department.

The independent factories, eight of whom are in the union, are already paying from 15 to 30 per cent, more than those outside the union. In the last wage scale, adopted, there was a provision that no change was to be made without sixty days' notice given by the side making the change to the other. When the new scale with the new advance was presented a couple of weeks ago there at once arose a protest.

Three of these factories—the Halpin-Newcomb Tobacco Company, J. S. Dill & Co., and the Wright-Surbrug Company—have signed it, but the other five have not up to this time done so. They declare that they intend to stand on their rights, that the union should give them sixy days' notice, and that action under any other circumstances would be a violation of contract. Moreover, they hold that the advance is uncalled for. They are already paying more than others and they do not appear disposed to bow to the union in this latest change.

The union has taken the important step of withdrawing the union label from the factories. They have also written to Mr. Henry Fisher, president of the International Union, who has headquarters in Louisville, and it is expected that Mr. Fisher will come here soon to look into the matter. Meanwhile the men are waiting for further developments.

are waiting for further developments.

MANUFACTURER SPEAKS,

A prominent manufacturer seen yesterday referred to the contract agreement for sixty days' notice, and declared that the union was acting in a high-handed fashion. The manufacturers were given no time to consider the new scale when they were due this two months. Instead of giving them this interval in which to decide the union had presented the scale and had withdrawn the label when they had not signed it at once. This gentleman did not think that the factories would consent to the advance.

On the other hand, Mr. Lonnie Reid, a member of the Advisory, Board of the union, reported last night that the men would stick fast the scale. He declared that by virtue of a previous contract with reference to the label the union had a right under the circumstances to withdraw it. Until the manufacturers sign the new scale, he said, they will not get the label.

ARBITRATION COMMITTEE.

The result of the affair will probably be the appointment of an arbitration committee, composed of representatives of either side. Conservative men believe that there will be an amicable settlement after a little while.

AGREEMENT REACHED.

As has been before stated, Manager Zimmer has been negotiating with the management of the local college since his arrival in the city, with a view to getting a game, and yesterday his efforts met with success, when an agreement was reached between the interested people.

In speaking of the coming contest yes.

In speaking of the coming contest yes In speaking, of the coming contest yes-terday afternoon, Manager Zimmer said-that the base-ball loving public could ex-nect good ball, as he proposed to make his men play as if they were in a game on which depended the pennant of the big league.

The manager added that while he ex-pected a victory, the game might prove more exciting than most people think, as his men, although old hands at the business, are still quite sore and stiff

more exciting than most people think, as his men, although old hands at the businoss, are still quite sore and stiff from the lack of exercise, while the collegians, on the other hand, are just as live and spry as they will ever be.
Captain Staples, of the college team, says that he does not expect to allow the professionals to walk over his team, while the players are all of the same mind, each being determined to do his utmost to win out.

THREB PITCHERS.

As will be observed from the foregoing line, each team expects to give at least three pitchers a trial, and it is probable that each will toss for three innings. It is also possible that the Phillies will have two catchers, as both Manager Zimmer and Roth are anxious for a try out.

The Phillies were out in force at the park yesterday afternoon, leaving the hotel at 2 o'clock and not getting back until 5. They worked energetically and with a will, as a consequence of which all were more or less sore last night. Their muscles have not become accustomed to the exercise as yet, but it is expected that this afternoon will find them in fine fettle.

After the pros left the field the college men took possession, no less than twenty men being on the ground, all in full uniform, and ready for a hard season of practice. They showed up remarkably well, and some will no doubt develop into really good exponents of the national game. Other contests will be arranged later.
